

STORING SUMMER TOYS

WHETHER IT'S AN ATV, POWERBOAT OR JET-SKI, MAKE SURE YOU PROPERLY STORE YOUR SUMMER TOYS OVER THE WINTER MONTHS SO THEY ARE READY FOR NEXT YEAR.

- ✓ Whether it is an ATV or powerboat or jet-ski, you will want to properly store your summer ride following the manufacturer's recommendations.
- ✓ For ATVs and jet-skis ensure they are stored in a locked shed or facility and have the necessary engine fuels drained.
- ✓ Bilge pumps should be drained from watercraft before winter storage.
- ✓ Many cottagers use "boat" or "marina" storage services – always utilize a reputable marina for your service and storage needs.
